

Affinity Cruises - What to Bring Marlborough Sounds Scallop Cruise

Suggested Clothing for Cruising on Affinity

Cruising on board Affinity is relaxed and casual and you will feel most comfortable if you bring relaxed and casual clothes with you. Weather can be changeable and the best way to cope with this is to pack 'layers' of clothing, including some wool and/or polypropylene thermal clothes. You will probably be surprised how few clothes you end up wearing while you are away and may wonder why you packed so much. There are no washing facilities on board so as long as you have enough undergarments you will probably find you wear the same favourite items most of the cruise.
